CERTIFICATE IN

CONSTRUCTION MANAGEMENT

“Opportunities are here for people who are prepared. A professional certificate is worth everything—especially if the person applying next to you doesn’t have that piece of paper.”

—York Davenport,
Construction Manager &
UCR Extension Instructor
Excellence Awardee

CONSTRUCT YOUR MANAGEMENT CAREER

Get advanced skills to succeed in the revitalized construction industry with a Professional Certificate in Construction Management. According to the California Employment Development Department, the construction field is adding thousands of jobs. As the market stabilizes and mortgage rates drop, the need for skilled construction managers will only continue to grow.

Learn how to plan, schedule, coordinate, and implement a wide variety of construction projects on tight deadlines and on budget. Gain specialty skills in every aspect of construction—from conception to clean-up—and stay up to date with industry standards and techniques from experts who are recognized practitioners in the field.

Engineers, contractors, designers and others in construction management will learn how to confidently negotiate supervision, finances and communication for complex, million-dollar developments in residential, commercial or industrial areas.

Achieve the best possible outcomes for your construction company and the community while empowering yourself for future success.

This program is endorsed by the Building Industry Association of Southern California (BIASC). For membership and event information, visit www.biasc.org.

WHAT YOU’LL LEARN

- Effectively manage projects, staff, and budgets, both off and on job sites
- Evaluate projects for green design, energy management, HVAC planning and other current concerns in the industry
- Collaborate with subcontractors, clients, government agencies and others
- Develop strategies to ensure quality and minimize exposure to lawsuits

ALSO OF INTEREST

- Students may take individual classes without being enrolled in the certificate program.
- No undergraduate degree or prerequisite needed.

ADMISSION

Take individual courses or fulfill all of the requirements to earn your UCR Extension professional certificate. Whichever you choose, you will gain the personal power that comes through learning new skills. Be assured that you are receiving education that is backed by the UC tradition of excellence.
