PROFESSIONAL CERTIFICATE IN SUPPLY CHAIN MANAGEMENT

“Supporting individuals in keeping pace with the changing requirements of the modern work environment is at our core. Collaboration, partnership, and community drive us to provide accessible, affordable education, and training for working adults. Whether you are an individual looking to advance your career, or an organizational leader interested in investing in your workforce, we are here for you.”

—Kasey Wilson, Ed.D.
Director of
Professional Programs
UCR Extension

MAKE DECISIONS THAT IMPACT LIVES EVERY DAY

Do you want to make leadership decisions that impact more people than you'll ever know? Thanks to a boost in retail from online shopping, the demand for people like you who enjoy a good challenge are needed in Supply Chain Management. From supplier to the consumer, every step in delivering goods and services is regulated and detail-oriented, requiring a high level of accuracy, coordination, and communication.

Equip yourself with knowledge in logistics, operations, purchasing, contracting, and related laws and regulations. In addition to learning tried-and-true principles and techniques for effective management of personnel, budgeting, and distribution systems, you'll also understand new challenges facing professionals in these roles, including e-commerce, emerging technologies, security, and global supply chain issues. With the right skill set and know-how, a career in Supply Chain Management can be rewarding, challenging, and potentially lucrative.

WHAT YOU'LL LEARN

- Enforce best practices of purchasing and logistics, including distribution systems, inventory control, traffic management, and contracting and subcontracting
- Evaluate case studies to understand current trends and challenges facing those in supply chain management
- Understand the roles and responsibilities in purchasing and logistics processes
- Implement legal requirements, contract negotiation, price/cost analysis, and management of outside resources and suppliers
- Examine logistics functions and facilitate interactions with personnel, facilities and equipment

WHO CAN BENEFIT

This program is designed for anyone involved in sourcing goods and services in any industry.

ADMISSION
